Dana Reyes

Senior Backend Engineer, Payments

dana@resume-fit.test | +351 912 000 000 | Lisbon, Portugal | https://dana.example | https://www.linkedin.com/in/dana-example

PROFESSIONAL SUMMARY

Backend engineer with nine years building payment and logistics platforms in TypeScript and PostgreSQL. Led a zero-downtime Stripe migration moving €1.2B a year and owns reliability end to end.

SKILLS

TypeScript • PostgreSQL • Stripe • Kafka • AWS • Terraform • Incident response

EXPERIENCE

Staff Software Engineer | Acme Payments 03/2022 – Present

- Led migration of card processing to Stripe, moving €1.2B annual volume with zero downtime.
- Designed an idempotent TypeScript and PostgreSQL ledger reconciling 2M transactions per day.
- Cut checkout p95 latency by 40%, from 820 ms to 490 ms.

Engineering Lead, Routing | Northwind Logistics 06/2017 – 12/2019

- Owned on-call for the dispatch platform, reducing incidents from 9 to 2 per month.
